4. The alumni members are dissatisfied with the library facilities available in the college.

5. SUGGESTIONS FOR FOLLOW UP MEASURES:

The following measures are being suggested as remedial measures with regard to the Student's Satisfaction Survey for the Academic Year 2020-21

1. Filling up of the vacancy position in teaching, library, and laboratory for enhancing quality of education.

2. Improvement is required for campus security, mentoring of students and student support services.

3. Career counselling cell needs to function much frequently to address career consciousness of students.

4. Regarding collection of fees, a uniform system may be developed for all type of fee payment.

5. Facilities in the library need to be developed as majority of the students, parents and alumni are dissatisfied with the present facilities available in the library. Though a lot of books are available in library, due to insufficient staff most of the stakeholders are not satisfied with the service available in the library.
